

Senior Developer (M/W)

Your mission:

- Ensure the proper functioning of the CoinGate application.
- Continually seek to optimize the application in all its aspects.
- Propose and implement new features to the CoinGate application.
- Manage the scaling phase of the current application.

Your profile:

- You have a strong teamwork spirit.
- You master the Flutter framework.
- You are familiar with container technology (especially Docker).
- You master the Java and Swift languages.

What we offer:

- Work accessible from anywhere in the world (only home office).
- Free organization of the working schedule.
- A dynamic, young and responsive team.
- Motivating, innovation-oriented challenges.
